

Module: Dashboards

[pawguard/modules/dashboards](#) — API prefix: `/dashboards`

PawGuard Backend | FastAPI 3.13 + PostgreSQL 17 + Redis/ARQ + S3 | Generated from repo @ commit 99a8430 (2026-08-12)

1. Purpose

Aggregation layer that powers role-specific dashboard views (read-heavy summary/statistics endpoints) without embedding reporting logic inside each business module.

2. Position in the Layered Architecture

[Client](#) → [Router \(auth+validate\)](#) → [Service \(business logic\)](#) → [Repository \(data access\)](#) → [PostgreSQL](#)

Like every module in this codebase, business rules live only in the Service layer; Routers authenticate/authorize/validate and Repositories perform data access with no business decisions (see [AGENTS.md](#) — the project's engineering constitution).

3. Data Model

This module does not own its own tables directly — it reads/writes through other modules' repositories (see [Notes](#) below).

4. API Endpoints (14 total)

Method	Path	Permission Required
GET	<code>/dashboards/rescue</code>	<code>dashboard:rescue</code>
GET	<code>/dashboards/rescue/stream</code>	<code>dashboard:rescue</code>
GET	<code>/dashboards/shelter</code>	<code>dashboard:shelter</code>
GET	<code>/dashboards/medical</code>	<code>dashboard:medical</code>
GET	<code>/dashboards/adoption</code>	<code>dashboard:adoption</code>
GET	<code>/dashboards/foster</code>	<code>dashboard:foster</code>
GET	<code>/dashboards/volunteer</code>	<code>dashboard:volunteer</code>
GET	<code>/dashboards/inventory</code>	<code>dashboard:inventory</code>
GET	<code>/dashboards/finance</code>	<code>dashboard:finance</code>
GET	<code>/dashboards/donor</code>	<code>dashboard:donor</code>
GET	<code>/dashboards/staff</code>	<code>system:admin</code>
GET	<code>/dashboards/executive</code>	<code>system:admin</code>
GET	<code>/dashboards/public</code>	—
GET	<code>/dashboards/operations</code>	<code>system:admin</code>

Distinct permission codes used: `dashboard:rescue`, `dashboard:shelter`, `dashboard:medical`, `dashboard:adoption`, `dashboard:foster`, `dashboard:volunteer`, `dashboard:inventory`, `dashboard:finance`, `dashboard:donor`, `system:admin`

5. Key Service-Layer Operations

- `adoption_dashboard`
- `donor_dashboard`
- `executive_dashboard`
- `finance_dashboard`
- `foster_dashboard`
- `inventory_dashboard`
- `medical_dashboard`

- operations_dashboard
- public_dashboard
- rescue_dashboard
- shelter_dashboard
- staff_dashboard
- volunteer_dashboard
