

Module: Settings

pawguard/modules/settings — API prefix: /settings

PawGuard Backend | FastAPI 3.13 + PostgreSQL 17 + Redis/ARQ + S3 | Generated from repo @ commit 99a8430 (2026-08-12)

1. Purpose

Global, tenant-wide configuration: feature flags and system settings read by multiple modules at runtime.

2. Position in the Layered Architecture

Client → Router (auth+validate) → Service (business logic) → Repository (data access) → PostgreSQL

Like every module in this codebase, business rules live only in the Service layer; Routers authenticate/authorize/validate and Repositories perform data access with no business decisions (see AGENTS.md — the project's engineering constitution).

3. Data Model — Owned Tables

Model Class	Table Name
SystemSetting	system_settings
PasswordPolicy	password_policies
BusinessRule	business_rules

4. API Endpoints (17 total)

Method	Path	Permission Required
GET	/settings/general	system:admin
GET	/settings/email	system:admin
GET	/settings/storage	system:admin
GET	/settings/public-content	public:read
PUT	/settings/public-content	system:admin
GET	/settings/system	system:admin
GET	/settings/system/{key}	system:admin
POST	/settings/system	system:admin
PUT	/settings/system/{key}	system:admin
DELETE	/settings/system/{setting_id}	system:admin
GET	/settings/password-policy	system:admin
PUT	/settings/password-policy	system:admin
GET	/settings/business-rules	system:admin
GET	/settings/business-rules/{rule_key}	system:admin
POST	/settings/business-rules	system:admin
PUT	/settings/business-rules/{rule_key}	system:admin
DELETE	/settings/business-rules/{rule_id}	system:admin

Distinct permission codes used: system:admin, public:read

5. Key Service-Layer Operations

- create_rule

- create_setting
- delete_rule
- delete_setting
- get_active
- get_content
- get_email_settings
- get_general_settings
- get_rule
- get_setting
- get_storage_settings
- list_all
- list_by_category
- list_by_module

+4 additional service methods.

Auto-extracted from pawguard/modules/settings/ (models.py, router(s), service.py) at repo commit 99a8430, 2026-08-12.
