

Module: Volunteer

pawguard/modules/volunteer — API prefix: /volunteers

PawGuard Backend | FastAPI 3.13 + PostgreSQL 17 + Redis/ARQ + S3 | Generated from repo @ commit 99a8430 (2026-08-12)

1. Purpose

Volunteer lifecycle: registration, shift scheduling, logged hours, and training-record tracking.

2. Position in the Layered Architecture

Client → Router (auth+validate) → Service (business logic) → Repository (data access) → PostgreSQL

Like every module in this codebase, business rules live only in the Service layer; Routers authenticate/authorize/validate and Repositories perform data access with no business decisions (see AGENTS.md — the project's engineering constitution).

3. Data Model — Owned Tables

Model Class	Table Name
VolunteerProfile	volunteer_profiles
VolunteerShift	volunteer_shifts
ShiftAttendance	shift_attendances

4. API Endpoints (15 total)

Method	Path	Permission Required
POST	/volunteers/apply	—
PUT	/volunteers/{profile_id}	volunteer:update
DELETE	/volunteers/{profile_id}	volunteer:update
GET	/volunteers/shifts	public:read
GET	/volunteers/{profile_id}	—
POST	/volunteers/shifts	volunteer:schedule
POST	/volunteers/shifts/{shift_id}/join	—
POST	/volunteers/attendance/{attendance_id}/check-in	—
POST	/volunteers/attendance/{attendance_id}/check-out	—
GET	/volunteers/shifts/{shift_id}/attendance	volunteer:read
GET	/volunteers	volunteer:update
POST	/volunteers/bulk/delete	volunteer:update
GET	/volunteers/{profile_id}/certificate	—
GET	/volunteers/{profile_id}/service-summary	—
POST	/volunteers/bulk/status	volunteer:update

Distinct permission codes used: volunteer:update, public:read, volunteer:schedule, volunteer:read

5. Key Service-Layer Operations

- apply_to_volunteer
- bulk_delete_profiles
- bulk_update_profile_status

- `check_in`
- `check_out`
- `create_shift`
- `get_profile`
- `get_profile_by_user`
- `get_service_summary`
- `issue_service_certificate`
- `join_shift`
- `list_attendance`
- `list_profiles`
- `list_shifts`

+2 *additional service methods.*

Auto-extracted from pawguard/modules/volunteer/ (models.py, router(s), service.py) at repo commit 99a8430, 2026-08-12.
